

Proposed Wheelchairs (Short-term access) (Scotland) Bill

Introduction

A proposal for a Bill to ensure the provision of wheelchairs to anyone assessed as needing one on a short-term, as well as on a long-term, basis. The consultation runs from 8 April 2019 to 30 June 2019. All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document. Questions marked with an asterisk (*) require an answer. All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response. Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded. Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here: [Consultation document Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice attached to this consultation which explains how my personal data will be used

About you

Please choose whether you are responding as an individual or on behalf of an organisation. Note: If you choose "individual" and consent to have the response published, it will appear under your own name. If you choose "on behalf of an organisation" and consent to have the response published, it will be published under the organisation's name.

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Optional: You may wish to explain briefly what expertise or experience you have that is relevant to the subject-matter of the consultation:

I am a wheelchair user.

Please select the category which best describes your organisation

No Response

Please choose one of the following:

I am content for this response to be published and attributed to me or my organisation

Please provide your name or the name of your organisation. (Note: the name will not be published if you have asked for the response to be anonymous or "not for publication". Otherwise this is the name that will be published with your response).

Anne Farrow

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

Aim and Approach

Q1. Which of the following best expresses your view of establishing a duty to provide a wheelchair to anyone who has been assessed as having a short-term need for one (defined as less than 6 months)?

Fully supportive

Please explain the reasons for your response.

Having access to a wheelchair will help people manage day to day life and hasten their recovery.

Q2. What is your view on setting a target for providing a wheelchair to a person who (a) has been assessed as having a short-term need for one and (b) is otherwise ready to use it?

Target of 24 hours (where practicable)

Please explain the reasons for your response

The sooner one is provided the better.

Q3. Which of the following best expresses your view of where the Bill should place the duty to provide short-term access to wheelchairs to people assessed as needing them?

Duty placed on NHS Boards, but with a requirement to delegate it to Integrated Authorities (Health & Social Care Partnerships)

Please explain the reasons for your response.

The NHS will identify and assess the the person's need for a temporary wheelchair and should delegate their provision.

Q4. Which of the following best expresses your view of how further provision about wheelchair access (e.g. assessment criteria and eligibility) should be made?

Ministers should have power to make regulations, give directions, and guidance

Please explain the reasons for your response.

Provision should be uniform throughout Scotland.

Q5. Which of the following best expresses your view of requiring Scottish Ministers to report back to the Parliament on the operation of the legislation?

Duty to report every year

Financial Implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
Government and the public sector (including the NHS, local authorities)			X			
Businesses (including makers and suppliers of wheelchairs)				X		
The third sector (including charities and voluntary bodies supporting those with mobility issues)				X		
Individuals (including people with mobility issues and their relatives)				X		

Please explain the reasons for your response.

the Red Cross reckons it costs approx £50 per person in 2018 to provide a short term loan. This would be off-set by health and care savings for the government. Businesses would make more profit, the third sector would need less resources and individuals would need less support/care.

Equalities

Q7. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, maternity and pregnancy, marriage and civil partnership, race, religion or belief, sex, sexual orientation?

Slightly positive

Please explain the reasons for your response.

At present older people are more likely to need short term wheelchair provision than younger people and aren't getting it, so there would be positive benefit on age discrimination.

Q8. In what ways could any negative impact of the Bill on equality be minimised or avoided?

Cannot think there would be any significant negative impact.

Sustainability

Q9. Do you consider that the proposed Bill can be delivered sustainably, i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Yes

Please explain the reasons for your response.

Having access to wheelchairs means that patients can leave hospital earlier reducing the risk of hospital-acquired infections and freeing up hospital beds.

General

Q10. Do you have any other comments or suggestions on the proposal?

It would be so much better for the patient's feeling of well-being and independence if they were given a temporary wheelchair.
Care must be taken to ensure the temporary wheelchairs are returned and not lost.
