

Proposed Wheelchairs (Short-term access) (Scotland) Bill

Introduction

A proposal for a Bill to ensure the provision of wheelchairs to anyone assessed as needing one on a short-term, as well as on a long-term, basis. The consultation runs from 8 April 2019 to 30 June 2019. All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document. Questions marked with an asterisk (*) require an answer. All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response. Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded. Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here: [Consultation document Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice attached to this consultation which explains how my personal data will be used

About you

Please choose whether you are responding as an individual or on behalf of an organisation. Note: If you choose "individual" and consent to have the response published, it will appear under your own name. If you choose "on behalf of an organisation" and consent to have the response published, it will be published under the organisation's name.

on behalf of an organisation

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

No Response

Please select the category which best describes your organisation

Public sector body (Scottish/UK Government/Government agency, local authority, NDPB)

Optional: You may wish to explain briefly what the organisation does, its experience and expertise in the subject-matter of the consultation, and how the view expressed in the response was arrived at (e.g. whether it is the view of particular office-holders or has been approved by the membership as a whole).

NHS

Please choose one of the following:

I am content for this response to be published and attributed to me or my organisation

Please provide your name or the name of your organisation. (Note: the name will not be published if you have asked for the response to be anonymous or "not for publication". Otherwise this is the name that will be published with your response).

Occupational Therapist working within a Trauma Unit in NHS Grampian

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

Aim and Approach

Q1. Which of the following best expresses your view of establishing a duty to provide a wheelchair to anyone who has been assessed as having a short-term need for one (defined as less than 6 months)?

Fully supportive

Please explain the reasons for your response.

We often have delayed discharges as a result of short term wheelchairs not being available. We do have a limited stock on the ward but there is strict criteria for these to be given out on short term loan. Not having access to a wheelchair for short term use can also impact on an individuals level of independence and quality of life as they do not have the mobility to be able to carry out simple personal care tasks such as going to the toilet or going to the local shop or social activities in the short term which may affect their confidence with this long term.

Q2. What is your view on setting a target for providing a wheelchair to a person who (a) has been assessed as having a short-term need for one and (b) is otherwise ready to use it?

Target of 24 hours (where practicable)

Please explain the reasons for your response

If it is to facilitate discharge then 24 hours would help prevent a delay in discharges.

Q3. Which of the following best expresses your view of where the Bill should place the duty to provide short-term access to wheelchairs to people assessed as needing them?

Duty placed on Integrated Authorities (Health and Social Care Partnerships)

Q4. Which of the following best expresses your view of how further provision about wheelchair access (e.g. assessment criteria and eligibility) should be made?

It should be left to NHS Boards or Integrated Authorities (as the case may be) to develop criteria for themselves

Please explain the reasons for your response.

Professionals working within the NHS and integrated authorities will have a more informed understanding on appropriate criteria in my opinion.

Q5. Which of the following best expresses your view of requiring Scottish Ministers to report back to the Parliament on the operation of the legislation?

Unsure

Financial Implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
Government and the public sector (including the NHS, local authorities)				X		
Businesses (including makers and suppliers of wheelchairs)						X
The third sector (including charities and voluntary bodies supporting those with mobility issues)				X		
Individuals (including people with mobility issues and their relatives)					X	

Equalities

Q7. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, maternity and pregnancy, marriage and civil partnership, race, religion or belief, sex, sexual orientation?

Neutral (neither positive nor negative)

Q8. In what ways could any negative impact of the Bill on equality be minimised or avoided?

No Response

Sustainability

Q9. Do you consider that the proposed Bill can be delivered sustainably, i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Unsure

Please explain the reasons for your response.

My only concern would be that people who meet the criteria would be given a wheelchair for short term use but how would we make sure the wheelchairs were returned after that period and who's responsibility would it be to follow this up?

General

Q10. Do you have any other comments or suggestions on the proposal?

I think it would be beneficial to help facilitate discharge from hospital but certain criteria would have to be met for who would be appropriate and a clear plan regarding who would be responsible for monitoring the wheelchair use and return after the short term loan.
